Jayne--

FYI--the full name of the CZARA program is the "Coastal Nonpoint Pollution Control Program". There is not "source" in the title. Thus I did not include in the letter.

Thanks all for the quick review and helpful comments on our response to the Hill. Please see updated version attached that I believes addresses everyone's comments.

We'll talk soon...

Allison

I agree with Jeff, since there is still a chance that we will get a longer extension from NWEA.

Subject: RE: Letter from Oregon Congressionals

From my perspective on behalf of Region 10, the response letter looks fine. I propose including a couple of sentences about the need for full participation of all agencies to achieve an effective nonpoint pollution control program.

Subject: Letter from Oregon Congressionals

FYI--Not sure if this is trickled down in EPA yet but NOAA received the attached letter from Oregon's Congressional delegation.

Main points:

1. They are displeased with proposed disapproval decision and ask us to reconsider.
2. They believe penalties will do more harm than good.
3. If we disapprove, they want us to explain what specific statutory requirements Oregon's program fails to meet.

NOAA and EPA should coordinate our response. An draft response is attached (although many eyes, including Joelle and Jeff, still need to review). We've been given until noon Monday to provide our response. We've requested until the 14th but do not know if that request has been granted.

I realize the timeline is very tight and we're working on other time-sensitive issues as well but please review and provide suggested edits to the letter by noon on Monday (in case we don't get an extension).

I hope everyone can enjoy your weekend in the meantime!

Allison
